Regardless of the economic climate, the financial sector is one that is continually evolving - technology improves, regulations increase - but opportunities always exist. With extensive experience working with financial institutions, insurance companies, commercial finance companies and other institutions involved in the lending and borrowing of capital, the Finance Group is uniquely qualified to help clients navigate the challenges and opportunities they face.

Our experience in these, and other areas, is often needed to effectively represent our financial institution clients and to help get the transaction done.

The hallmark of our practice is the close working relationship we have established with clients and our individualized attention to each of them. We approach each matter as a team, involving partners, associates and staff, and work with all levels of each client's internal organization. The team's depth enables us to handle matters expeditiously and efficiently without sacrificing attention to detail. We understand the issues, very often from prior transactions with the borrower parties and opposing counsels, but most importantly, we know our clients, how they underwrite, document and administer their loans.

We value the long-standing relationships we have built with our clients. As a result, we have been called on to help formulate internal policies and procedures. We have also played an integral part in helping our clients develop their training programs and often conduct workshops and seminars for them on various
